

Family Service Regina Service Delivery Philosophy

The concerns/issues for the people we support should be served with complete regard for their individual needs without discrimination and with the objective of giving everyone the opportunity to return to their right of self-reliance and self-respect.

Therefore, our objectives are:

1. To offer services to families and individuals for the purpose of creating and maintaining a healthy life
2. To promote a healthy community life and overall positive well-being
3. Generally, to develop, encourage and work for the welfare of the family and individual and the best interests of society in all matter affecting individual, family and community life.
